### 1. Nature of operations

Massachusetts Mutual Life Insurance Company (MassMutual), a mutual life insurance company domiciled in the Common wealth of Massachusetts, and its domestic life insurance subsidiaries domiciled in the State of Connecticut (collectively, the Company), provide individual and group life insurance, disability insurance, individual and group annuities and guaranteed interest contracts (GlCs) to individual and institutional customers in all 50 states of the United States of America (U.S.), the District of Columbia and Puerto Rico. Products and services are offered primarily through the Company's MM Financial Advisors (MMFA), Direct to Consumer, Institutional Solutions and Workplace Solutions distribution channels.

MMFA is a sales force that includes financial advisors that operate in the U.S. MMFA sells individual life, individual annuities and disability insurance. The Company's Direct to Consumer distribution channel sells individual life primarily through direct response television advertising, digital media, search engine optimization and search engine marketing. The Company's Institutional Solutions distribution channel sells group annuities, group life and GICs primarily through retirement advisory firms, actuarial consulting firms, investment banks, insurance benefit advisors and investment management companies. The Company's Workplace Solutions distribution channel sells group annuities as well as individual and group life products distributed through investment advisors.

### 2. Summary of significant accounting policies

### a. Basis of presentation

These condensed consolidated statutory financial statements include MassMutual and its wholly-owned subsidiaries, C.M. Life Insurance Company (C.M. Life) and C.M. Life's wholly-owned subsidiary, MML Bay State Life Insurance Company (MML Bay State). All intercompany transactions and balances for these consolidated entities have been eliminated. Other subsidiaries and affiliates are accounted for under the equity method in accordance with statutory accounting practices. Statutory financial statements filed with regulatory authorities are not presented on a consolidated basis.

The condensed consolidated statutory financial statements have been prepared in conformity with the statutory accounting practices of the National Association of Insurance Commissioners (NAIC) and the accounting practices prescribed or permitted by the Commonwealth of Massachusetts Division of Insurance (the Division); and for the wholly-owned U.S. domiciled life insurance subsidiaries, the State of Connecticut Insurance Department.

The condensed consolidated statutory financial statements and notes as of March 31, 2017 and December 31, 2016, and for the three months ended March 31, 2017 and 2016, are unaudited. These condensed consolidated statutory financial statements, in the opinion of management, reflect the fair presentation of the financial position, results of operations, changes in surplus and cash flows for the interimperiods. These condensed consolidated statutory financial statements and notes should be read in conjunction with the consolidated statutory financial statements and notes thereto included in the Company's 2016 audited year end financial statements as these condensed consolidated statutory financial statements disclose only significant changes from year end 2016. The results of operations for the interim periods should not be considered indicative of results to be expected for the full year. The Condensed Consolidated Statutory Statements of Financial Position as of December 31, 2016 have been derived from the audited consolidated financial statements at that date, but do not include all of the information and footnotes required by statutory accounting practices for complete financial statements.

For the full description of accounting policies, see *Note 2*. "Summary of significant accounting policies" of Notes to Consolidated Statutory Financial Statements included in the Company's 2016 audited consolidated yearend financial statements.

#### b. Corrections of errors and reclassifications

For the three months ended March 31, 2017, corrections of prior year errors were recorded in surplus, net of tax:

	In	crease (I	)to:	Corr	ection			
	Pı	rior	Cu	rrent	of A	Asset		
	Years Net Income		Year		Years Year		or Li	ability
			Su	rplus	Bala	ances		
			(In M	illions)				
Policyholders'reserves		8	\$	8	\$	(8)		
Otherassets		1		1		(1)		
Partnerships and limited liability companies		-		(2)		2		
Total		9	\$	7	\$	(7)		

Of the \$7 million increase to surplus for prior year errors, \$9 million was recorded as prior period adjustments with an offset of \$2 million recorded as a change in nonadmitted assets, net of tax in the Condensed Consolidated Statutory Statements of Changes in Surplus.

For the three months ended March 31, 2016, corrections of prior year errors were recorded in surplus, net of tax:

	Ir	ncrease (E	e)to:	Corr	rection	
	F	Prior	Cu	irrent	of A	Asset
	Years Net Income		3	Year	or Li	iability
			Su	rplus	Bala	ances
			(In M	(Iillions		
Federal income tax receivable	\$	(23)	\$	(23)	\$	23
Partnerships and limited liability companies		-		(5)		5
Total	\$	(23)	\$	(28)	\$	28

Of the \$28 million decrease to surplus for prior year errors, \$23 million was recorded as prior period adjustments and \$5 million was recorded as a change in net unrealized capital gains (losses), net of tax in the Condensed Consolidated Statutory Statements of Changes in Surplus.

Certain prior year amounts within these financial statements have been reclassified to conform to the current year presentation.

#### c. Common stocks - subsidiaries and affiliates

Common stocks of unconsolidated subsidiaries, primarily MassMutual Holding LLC (MMHLLC) and MassMutual International LLC (MMI), are accounted for using the statutory equity method. The Company accounts for the value of MMHLLC and MMI at its underlying U.S. GAAP equity value adjusted to remove certain nonadmitted and intangible assets. MMHLLC's value is also adjusted by a portion of its noncontrolling interests (NCI) and appropriated retained earnings, after consideration of MMHLLC's fair value and the Company's capital levels. The Division has affirmed the statutory recognition of the Company's application of the NCI guidelines in MMHLLC's statutory carrying value. However, the Company has limited this recognition to \$2,577 million as of March 31, 2017 and \$2,675 million as of December 31, 2016. Operating results, less dividend distributions, for MMHLLC are reflected as net unrealized capital gains (losses) in the Consolidated Statutory Statements of Changes in Surplus. Dividend distributions received from MMHLLC are recorded in net investment income and are limited to MMHLLC's U.S. GAAP retained earnings. The cost basis of common stocks – subsidiaries and affiliates is adjusted for impairments deemed to be other than temporary.

Refer to *Note 4b.* "Common stocks – subsidiaries and affiliates" for further information on the valuation of MMHLLC and MMI.

### 3. New accounting standards

#### Adoption of new accounting standards

In April 2016, the NAIC adopted modifications to SSAP No. 41R, *Surplus Notes*, which was effective January 1, 2017. These modifications require that the surplus notes with a designation equivalent to NAIC 3 through 6 be reported at the lesser of amortized cost or fair value. Currently these surplus notes are reported at amortized cost. The modifications also incorporate guidance to clarify when surplus notes shall be nonadmitted, an unrealized loss should be recognized, and an other-than-temporary (OTTI) as sessment should be performed. The adoption of this guidance did not have an impact on the Company's financial statements.

In June 2016, the NAIC adopted modifications to SSAP No. 26, *Bonds, Excluding Loan-backed and Structured Securities*, and SSAP No. 43R, *Loan-backed and Structured Securities*, which were effective January 1, 2017 and will be prospectively applied. These modifications clarified that the amount of prepayment penalties or acceleration fees reported as investment income should equal the total proceeds received less the par value of the investment; and any difference between the carrying value and the par value at the time of disposal will be reported as realized capital gains and losses. These modifications also added specific disclosures related to securities sold, redeemed or otherwise disposed of as a result of a callable feature. These modifications did not have a significant impact on the Company's financial statements.

In June 2016, the NAIC adopted SSAP No. 103R, *Transfers and Servicing of Financial Assets and Extinguishment of Liabilities*, which was effective January 1, 2017. These modifications required that obligations to deliver securities resulting from short sales be accounted for as contra-assets, and measured at fair value with changes in fair value recognized as unrealized gains and losses. The guidance also required new disclosures about short sale transactions. The unrealized gains and losses are realized upon settlement of the short sale obligation. Interest on short sale positions is accrued periodically and reported as interest expense. The adoption of this guidance did not have an impact on the Company's financial statements.

In June 2016, the NAIC adopted substantive revisions to SSAP No. 51, *Life Contracts*, to incorporate references to the Valuation Manual (VM) and to facilitate the implementation of PBR, which was effective on January 1, 2017. The adoption of PBR only applies to new policies issued after January 1, 2017, however the Company has not yet adopted these revisions. The Company currently uses formulas and assumptions to determine reserves as prescribed by state laws and regulations. Under PBR, the Company will be required to hold the higher of (a) the reserve using prescribed factors and (b) the PBR reserve which considers a wide range of future economic conditions, computed using justified company experience factors, such as mortality, policyholder behavior and expenses. The Company plans to adopt these revisions to SSAP No.51 using the 3-year phased in approach by no later than January 1, 2020 and it has not yet determined the effect of adopting the guidance on its financial statements.

In August 2016, the NAIC adopted modifications to SSAP No. 51, *Life Contracts*. These modifications clarify that annual assumption changes from reserving methods used in principles-based reserving (PBR) would not qualify as a change in valuation basis. Changes in valuation basis are recorded directly to surplus instead of through income. This modification was made to accommodate PBR which became effective January 1, 2017. This modification did not have an impact on the Company's financial statements.

#### Future adoption of new accounting standards

In December 2016, the NAIC adopted revisions to SSAP No. 2R, *Cash*, *Drafts*, *and Short-Term Investments*, which will be effective December 31, 2017. These revisions require that money market mutual funds shall be (a) reclassified from short-term investments to cash equivalents and (b) valued at fair value or NAV as a practical expedient. The adoption of this guidance is not expected to have an impact on the Company's financial statements.

In April 2017, the NAIC adopted SSAP No. 26R, *Bonds*, which will be effective December 31, 2017. These modifications are part of an ongoing investment classification project. The adopted modifications (a) provide a definition of a security, (b) update the description of bonds included in scope of the guidance, and (c) require fair value accounting for certain Securities Valuation Office identified investments, such as bond exchange traded funds and other bond mutual funds, unless a systematic value has been elected. While the scope specifically includes bank loans acquired through participation, syndication or assignment, additional guidance on bank loans is being redeliberated as a separate topic. The Company is currently assessing the potential impact of these modifications on its financial statements.

In April 2017, the NAIC issued a modification to SSAP No. 69, Statement of Cash Flows: Classification of Certain Cash Receipts and Cash Payments, which is effective January 1, 2018 with early adoption permitted. This guidance addresses the classification of: (a) debt prepayment or extinguishment costs; (b) interest accretion and principal payment on zero coupon debt; (c) contingent consideration payments made after a business combination; (d) proceeds from the settlement of insurance claims; (e) proceeds from the settlement of corporate owned life insurance (COLI) policies; (f) distributions received from equity method investees; (g) beneficial interest in securitization transactions; and (h) separately identifiable cash flows and the application of the predominance principle. The Company is currently assessing the impact of this guidance on its financial statements.

### 4. Investments

The Company maintains a diversified investment portfolio. Investment policies limit concentration in any asset class, geographic region, industry group, economic characteristic, investment quality or individual investment.

#### a. Bonds

The carrying value and fair value of bonds were as follows:

		March 31, 2017											
			Gro	OSS	Gr	oss							
	Carrying		Carrying Unrealized U		Carrying Unrealized Unrealized		I	Fair					
		Value	Ga	ins	Lo	sses	V	alue

The March 31, 2017 gross unrealized losses include \$29 million of losses included in the carrying value. These losses include \$25 million from NAIC Class 6 bonds and \$4 million from RMBS and CMBS whose ratings were obtained from outside modelers. These losses were primarily included in industrial and miscellaneous or parent, subsidiaries and affiliates.

The December 31, 2016 gross unrealized losses exclude \$25 million of losses included in the carrying value. These losses include \$20 million from NAIC Class 6 bonds and \$5 million from RMBS and CMBS whose ratings were obtained from outside modelers. These losses were primarily included in industrial and miscellaneous or parent, subsidiaries and affiliates.

As of March 31, 2017 and December 31, 2016, management has not deemed these unrealized losses to be other than temporary because the investment's carrying value is expected to be realized and the Company has the ability and intent not to sell these investments until recovery, which may be at maturity.

As of March 31, 2017, investments in structured and loan-backed securities that had unrealized losses, which were not recognized in earnings, had a fair value of \$7,024 million. Securities in an unrealized loss position for less than 12 months had a fair value of \$2,850 million and unrealized losses of \$32 million. Securities in an unrealized loss position for greater than 12 months had a fair value of \$4,173 million and unrealized losses of \$102 million. These securities were primarily categorized as industrial and miscellaneous or parent, subsidiaries and affiliates.

As of December 31, 2016, investments in structured and loan-backed securities that had unrealized losses, which were not recognized in earnings, had a fair value of \$8,377 million. Securities in an unrealized loss position for less than 12 months had a fair value of \$3,472 million and unrealized losses of \$67 million. Securities in an unrealized loss position for greater than 12 months had a fair value of \$4,905 million and unrealized losses of \$108 million. These securities were primarily categorized as industrial and miscellaneous or parent, subsidiaries and affiliates.

In the course of the Company's investment management activities, securities may be sold and reacquired within 30 days to enhance the Company's yield on its investment portfolio. The Company did not sell any securities with the NAIC Designation 3 or below for the three months ended March 31, 2017 or for the year ended December 31, 2016, that were reacquired within 30 days of the sale date.

#### Residential mortgage-backed exposure

RMBS are included in the U.S. government and agencies, special revenue and industrial and miscellaneous bond categories. The Alt-A category includes option adjustable-rate mortgages and the subprime category includes 'scratch and dent' or reperforming pools, high loan-to-value pools and pools where the borrowers have very impaired credit but the average loan-to-value is low, typically 70% or below. In identifying Alt-A and subprime exposure, management used a combination of qualitative and quantitative factors, including FICO scores and loan-to-value ratios.

As of March 31, 2017, RMBS had a total carrying value of \$1,518 million and a fair value of \$1,718 million, of which approximately 24%, based on carrying value, was classified as Alt-A. Alt-A and subprime RMBS had a total carrying value of \$700 million and a fair value of \$831 million.

As of December 31, 2016, RMBS had a total carrying value of \$1,590 million and a fair value of \$1,813 million, of which approximately 23%, based on carrying value, was classified as Alt-A. Alt-A and subprime RMBS had a total carrying value of \$727 million and a fair value of \$872 million.

### b. Common stocks – subsidiaries and affiliates

The MMHLLC statutory carrying values consist of \$8,749 million as of March 31, 2017 and \$8,870 million as of December 31, 2016. The MMI statutory carrying values consist of \$2,163 million as of March 31, 2017 and \$2,211 million as of December 31, 2016.

On July 1, 2016, MassMutual's purchase of MSI Financial Services (MSIFS) was accounted for under the statutory purchase method, classified as investments in common stocks – subsidiaries and affiliates at a cost of \$126 million which included the recognition of statutory goodwill of \$38 million. On March 25, 2017, MassMutual contributed MSIFS to MMHLLC at carrying value of \$120 million, which excluded the remaining unamortized statutory goodwill of \$35 million. The remaining unamortized statutory goodwill was transferred from MassMutual's carrying value of MSIFS to its carrying value of MMHLLC. MSIFS was subsequently merged with MMHLLC's other broker dealer, MML Investor Services.

MassMutual received cash dividends, recorded in net investment income, from MMHLLC of \$274 million through the three months ended March 31, 2017 and \$100 million through the three months ended March 31, 2016.

MassMutual contributed additional capital of \$14 million to MMHLLC through the three months ended March 31, 2017 and \$670 million through the three months ended March 31, 2016. As part of last year's capital contributions, MassMutual contributed nine investments with a book value of \$670 million to MMHLLC during the first quarter of 2016. This contribution was recorded at book value, and accordingly, there was no gain or loss recognized.

Subsidiaries of MMHLLC are involved in litigation and investigations arising in the ordinary course of their business, which seek compensatory damages, punitive damages and equitable remedies. Although the Company is not aware of any actions or allegations that reasonably should give rise to a material adverse impact to the Company's financial position or liquidity, the outcome of litigation cannot be foreseen with certainty. It is the opinion of management that the ultimate resolution of these matters will not materially impact the Company's financial position or liquidity. However, the outcome of a particular proceeding may be material to the Company's Condensed Consolidated Statutory Statements of Changes in Surplus for a particular period depending upon, among other factors, the size of the loss and the level of the Company's changes in surplus for the period.

#### c. Mortgage loans

Mortgage loans comprised commercial mortgage loans and residential mortgage loans. The Company's commercial mortgage loans primarily finance various types of real estate properties throughout the U.S., the United Kingdom and Canada. The Company holds commercial mortgage loans for which it is the primary lender and mezzanine loans that are subordinate to senior secured first liens. Residential mortgage loans are primarily seasoned pools of homogeneous residential mortgage loans substantially backed by Federal Housing Administration (FHA) and Veterans Administration (VA) guarantees.

The carrying value and fair value of the Company's mortgage loans were as follows:

		March	31,2	2017			Decembe	er 31, 2016

#### d. Derivatives

The Company uses derivative financial instruments in the normal course of business to manage risks, primarily to reduce currency, interest rate and duration imbalances determined in asset/liability analyses. The Company also uses a combination of derivatives and fixed income investments to create synthetic investments. These synthetic investments are created when they are economically more attractive than the actual instrument or when similar instruments are unavailable. Synthetic investments are created either to hedge and reduce the Company's credit and foreign currency exposure or to create an investment in a particular asset. The Company held synthetic investments with a notional amount of \$12,297 million as of March 31, 2017 and \$12,147 million as of December 31, 2016. These notional amounts included replicated asset transaction values of \$10,889 million as of March 31, 2017 and \$10,739 million as of December 31, 2016, as defined under statutory accounting practices as the result of pairing of a long derivative contract with cash instruments.

The Company's principal derivative market risk exposures are interest rate risk, which includes the impact of inflation, and credit risk. Interest rate risk pertains to the change in fair value of the derivative instruments as market interest rates move. The Company is exposed to credit-related losses in the event of nonperformance by counterparties to derivative financial instruments. To minimize credit risk for bilateral transactions (individual contracts entered between the Company and a counterparty), the Company and its derivative counterparties generally enter into master netting agreements that allow the use of credit support annexes and require collateral to be posted in the amount owed under each transaction, subject to certain minimums. For over the counter cleared derivative transactions between the Company and a counterparty, the parties enter into a series of master netting and other agreements that govern, among other things, clearing and collateral requirements. These transactions are cleared through a clearinghouse and each derivative counterparty is only exposed to the default risk of the clearing house. Certain interest rate swaps and credit default swaps are considered cleared transactions. These cleared transactions require initial and daily variation margin collateral postings. These same agreements allow for contracts in a positive position, in which amounts are due to the Company, to be offset by contracts in a negative position. This right of offset, combined with collateral obtained from counterparties, reduces the Company's credit exposure. Net collateral pledged by the counterparties was \$2,944 million as of March 31, 2017 and \$3,236 million as of December 31, 2016. The Company had the right to rehypothecate or repledge securities totaling \$843 million of the \$2,944 million as of March 31, 2017 and \$1,031 million of the \$3,236 million as of December 31, 2016 of net collateral pledged by counterparties. There were no securities rehypothecated to other counterparties as of March 31, 2017 and December 31, 2016. In the event of default, the full market value exposure at risk in a net gain position, net of offsets and collateral, was \$103 million as of March 31, 2017 and \$264 million as of December 31, 2016. The statutory net amount at risk, defined as net collateral pledged and statement values excluding accrued interest, was \$681 million as of March 31, 2017 and \$766 million as of December 31, 2016. The Company regularly monitors counterparty credit ratings, derivative positions, valuations and the value of collateral posted to ensure counterparties are credit-worthy and the concentration of exposure is minimized. The Company monitors its derivative credit exposure as part of its overall risk management program.

The following summarizes the carrying values and notional amounts of the Company's derivative financial instruments:

		Marcl	n 31, 2017	
	As	sets	Liabi	lities
	Carrying	Notional	Carrying	Notional
	Value	Amount	Value	Amount
		(In Mi	llions)

Financial futures	_	3,646		-			
Total	\$ 10,272	\$ 102,746	\$ 6,515	\$ 96,479			

In most cases, notional amounts are not a measure of the Company's credit exposure. However, notional amounts are a measure of the Company's credit exposure for credit default swaps that are in the form of a replicated asset and mortgage-backed forwards. For these swaps and forwards, the Company is fully exposed to notional amounts of \$3,843 million as of March 31, 2017 and \$3,793 million as of December 31, 2016.

The collateral amounts exchanged are calculated on the basis of the notional amounts and the other terms of the instruments, which relate to interest rates, exchange rates, security prices or financial or other indices.

The average fair value of outstanding derivative assets was \$9,915 million for the three months ended March 31, 2017 and \$11,867 million for the three months ended March 31, 2016. The average fair value of outstanding derivative liabilities was \$6,263 million for the three months ended March 31, 2017 and \$8,378 million for the three months ended March 31, 2016.

The following summarizes the notional amounts of the Company's credit default swaps by contractual maturity:

Partnerships and LLCs		270		90	
Derivatives		78		87	
Cash, cash equivalents and short-terminvestments		11		9	
Other		(1)		(3)	
Subtotal investment income		2,034		1,693	
Amortization of the IMR		13		32	
Investment expenses		(147)		(143)	
Net investment income	\$	1,900	\$	1,582	

#### f. Net realized capital (losses) gains

Net realized capital (losses) gains, which include OTTI and are net of deferral to the IMR, comprised the following:

	Three Months Ended March 31,				
		2017	4	2016	
	(In Millions)				
Bonds	\$	(43)	\$	(98)	
Preferred stocks	Ψ	(43)	Ψ	4	
Common stocks - subsidiaries and affiliates		_		(1)	
Common stocks - subsidiaries and armiates  Common stocks - unaffiliated		(22)			
		(23)		(27)	
Mortgage loans		(8)		-	
Real estate		29		-	
Partnerships and LLCs		(22)		(16)	
Derivatives		(102)		393	
Other		(272)		6	
Net realized capital (losses) gains before federal				<del></del> -	
and state taxes and deferral to the IMR		(441)		261	
Net federal and state tax benefit		163		37	
Net realized capital (losses) gains before deferral					
to the IMR		(278)		298	
Net after tax losses (gains) deferred to the IMR		54		(139)	
Net realized capital (losses) gains	\$	(224)	\$	159	

The IMR liability balance was \$38 million as of March 31, 2017 and \$42 million as of December 31, 2016 and was included in other liabilities on the Condensed Consolidated Statutory Statements of Financial Position. Refer to *Note 13*. "Surplus notes" for information on the Other realized capital loss.

OTTI, included in the realized capital losses, consisted of the following:

	Th	Three Months Ende						
		March 31,						
	2	2017	2	2016				
		llions	ons)					
Bonds	\$	(6)	\$	(42)				
Common stocks		(36)		(7)				
Preferred stocks		-		(1)				
Partners hips and LLCs		(15)		(16)				
Total OTTI	\$	(66)						

The Company recognized OTTI of less than \$1 million for the three months ended March 31, 2017 and \$2 million for the three months ended March 31, 2016 on structured and loan-backed securities, which are included in bonds, primarily due to the present value of expected cash flows being less than the amortized cost.

#### 5. Federal income taxes

No significant changes.

#### 6. Other than invested assets

#### Fixed assets

In March 2017, the Company recorded an impairment on previously capitalized software costs of \$221 million. This impairment was recorded as general insurance expenses in the Condensed Consolidated Statutory Statements of Operations. This impairment did not impact surplus, as the asset was previously nonadmitted.

### 7. Policyholders' liabilities

Certain variable annuity contracts include additional death or other insurance benefit features, such as guaranteed minimum death benefits (GMDBs), guaranteed minimum income benefits (GMIBs), guaranteed minimum accumulation benefits (GMABs) and guaranteed minimum withdrawal benefits (GMWBs). In general, living benefit guarantees require the contract holder or policyholder to adhere to a company-approved asset allocation strategy. Election of these benefits is generally only available at contract issue.

The following shows the changes in the liabilities for GMDBs, GMIBs, GMABs and GMWBs (in millions):

Liability as of January 1, 2016	\$ 579
Incurred guarantee benefits	81
Paid guarantee benefits	(6)
Liability as of December 31, 2016	654
Incurred guarantee benefits	(71)
Paid guarantee benefits	(2)
Liability as of March 31, 2017	\$ 581

The Company held reserves in accordance with the stochastic scenarios as of March 31, 2017 and December 31, 2016. As of March 31, 2017 and December 31, 2016, the Company held additional reserves above those indicated based on the stochastic scenarios in order to maintain a prudent level of reserve adequacy.

The following summarizes the account values, net amount at risk and weighted average attained age for variable annuity contracts with GMDBs, GMIBs, GMABs and GMWBs classified as policyholders' reserves and separate account liabilities. The net amount at risk is defined as the minimum guarantee less the account value calculated on a policy-by-policy basis, but not less than zero.

			Marc	h 31, 20	17		December 31, 2016				
			]	Net	Weighted				Net	Weighted	
	A	Account Amount Average				A	Account	A	mount	Average	
		Value	at Risk Attained Age				Value	a	t Risk	Attained Age	
					(\$ In N	Aillions	lions)				
GMDB	\$	21,013	\$	61	64	\$	20,473	\$	72	63	
GMIB Basic		906		69	67		894		92	67	
GMIB Plus		3,132		516	66		3,059		589	66	
GMAB		3,215		13	59		3,158		22	58	
GMWB		210		12	69		206		15	69	

As of March 31, 2017, the GMDB account value above consists of \$4,445 million within the general account and \$16,567 million within separate accounts that includes \$4,419 million of modified coinsurance assumed. As of December 31, 2016, the GMDB account value above consists of \$4,408 million within the general account and \$16,065 million within separate accounts that includes \$4,247 million of modified coinsurance assumed.

#### 8. Reinsurance

No significant changes.

### 9. Withdrawal characteristics

No significant changes.

#### 10. Debt

No significant changes.

### 11. Employee benefit plans

The Company sponsors multiple employee benefit plans, providing retirement, life, health and other benefits to employees, certain employees of unconsolidated subsidiaries, agents, general agents and retirees who meet plan eligibility requirements.

#### Net periodic cost

The net periodic cost represents the annual accounting income or expense recognized by the Company and is included in general insurance expenses in the Condensed Consolidated Statutory Statements of Operations. The net periodic cost recognized is as follows:

	Three Months Ended March 31,									
	2017 2016			2016	2017		2	016		
		Pen	sion		O	ment				
		Ben	efits		Benefits					
			)							
Service cost	\$	32	\$	21	\$	3	\$	3		
Interest cost		28		28		3		4		
Expected return on plan assets		(37)		(36)		-		-		
Amortization of unrecognized net actuarial and other losses		16		18		1		1		
Amortization of unrecognized prior service cost		1		1		(2)		(2)		
Total net periodic cost	\$	40	\$	32	\$	5	\$	6		

### 12. Employee compensation plans

No significant changes.

### 13. Surplus notes

The Company executed a tender offer in March 2017 for \$440 million par value of surplus notes maturing in 2039. The Company paid \$711 million of cash to settle the tender offer which resulted in a pre-tax loss of \$271 million. This loss is included in net realized gains (losses) within the Condensed Consolidated Statutory Statements of Operations and other costs of investments acquired within the Condensed Consolidated Statutory Statements of Cash Flows and is net of a tax benefit of \$95 million.

The following table summarizes the surplus notes is sued and outstanding as of March 31, 2017:

Issue Date	A	Face Amount		Carrying Value	Interest Rate	Maturity Date	Scheduled Interest Payment Dates
		(\$ In I	Million	ns)			
11/15/1993	\$	250	\$	250	7.625%	11/15/2023	May 15 & Nov 15

### 14. Presentation of the Condensed Consolidated Statutory Statements of Cash Flows

The following table presents those transactions that have affected the Company's recognized assets or liabilities but have not resulted in cash receipts or payments during the three months ended March 31, 2017 and 2016. Accordingly, the Company has excluded these non-cash activities from the Condensed Consolidated Statutory Statements of Cash Flows for the three months ended March 31, 2017 and 2016.

The Company reviews the fair value hierarchy classifications each reporting period. Changes in the observability of the valuation attributes and the level of market activity may result in a reclassification of certain financial assets or liabilities between fair value hierarchy classifications. Such reclassifications are reported as transfers between levels at the beginning fair value for the reporting period in which the changes occur. For the period ended March 31, 2017, \$298 million of equity securities were transferred from Level 2 to Level 1.

The following presents the Company's fair value hierarchy for as sets and liabilities that are carried at fair value:

	December 31, 2016										
		Level 1	I	Level 2	L	evel 3		Total			
	(In Millions)

Other transfers		63		9		(2)		16		5		-	91
Balance as of December 31,2016	\$	58	\$	58	\$	3	\$	63	\$	191	\$	738	\$ 1,111

Level 3 Transfers in are assets that are consistently carried at fair value but have a level change. The separate account assets were transferred from Level 2 to Level 3 due to a change in the observability of pricing inputs.

Other transfers include assets that are either no longer carried at fair value, or have just begun to be carried at fair value, such as assets with no level changes but a change in the lower of cost or market carrying basis. Industrial and miscellaneous bonds were transferred from Level 2 to Level 3 due to a change in the observability of pricing inputs.

### 16. Business risks, commitments and contingencies

#### a. Risks and uncertainties

The Company operates in a business environment subject to various risks and uncertainties. The principal risks include insurance and underwriting risks, investment and interest rate risks, currency exchange risk and credit risk. The combined impact of these risks could have a material, adverse effect on the Company's financial statements or result in operating losses in future periods. The Company employs the use of reinsurance, portfolio diversification, asset/liability management processes and other risk management techniques to mitigate the impact of these risks. This condensed risks and uncertainties disclosure should be read in conjunction with the consolidated statutory disclosure in the Company's 2016 audited year-end financial statements.

#### Insurance and underwriting risks

The Company prices its products based on estimated benefit payments reflecting assumptions with respect to mortality, morbidity, longevity, persistency, interest rates and other factors. If actual policy experience emerges that is significantly and adversely different from assumptions used in product pricing, the effect could be material to the profitability of the Company. For participating whole life products, the Company's dividends to policyholders primarily reflect the difference between actual investment, mortality, expense and persistency experience and the experience embedded in the whole life premiums and guaranteed elements. The Company also reinsures certain life insurance and other long-term care insurance policies to mitigate the impact of its underwriting risk.

#### Investment and interest rate risks

The fair value, cash flows and earnings of investments can be influenced by a variety of factors including changes in interest rates, credit spreads, equity markets, portfolio asset allocation and general economic conditions. The Company employs a rigorous asset/liability management process to help mitigate the economic impacts of various investment risks, in particular, interest rate risk. By effectively matching the market sensitivity of as sets with the liabilities they support, the impact of interest rate changes is addressed, on an economic basis, as the change in the value of the asset is offset by a corresponding change in the value of the supported liability. The Company uses derivatives, such as interest rate swaps and swaptions, as well as synthetic assets to reduce interest rate and duration imbalances determined in asset/liability analyses.

The levels of U.S. interest rates are influenced by U.S. monetary policies and by the relative attractiveness of U.S. markets to investors versus other global markets. As interest rates increase, certain debt securities may experience amortization or prepayment speeds that are slower than those assumed at purchase, impacting the expected maturity of these securities and the ability to reinvest the proceeds at the higher yields. Rising interest rates may also result in a decrease in the fair value of the investment portfolio. As interest rates decline, certain debt securities may experience accelerated amortization and prepayment speeds than what was assumed at purchase. During such periods, the Company is at risk of lower net investment income as it may not be able to reinvest the proceeds at comparable yields. Declining interest rates may also increase the fair value of the investment portfolio.

Interest rates also have an impact on the Company's products with guaranteed minimum payouts and on interest credited to account holders. As interest rates decrease, investment spreads may contract as crediting rates approach minimum guarantees, resulting in an increased liability.

In periods of increasing interest rates, policy loans, surrenders and withdrawals may increase as policyholders seek investments with higher perceived returns. This could result in cash outflows requiring the Company to sell invested assets at a time when the prices of those assets are adversely affected by the increase in market interest rates, which could cause the Company to realize investment losses.

#### Currency exchange risk

The Company has currency risk due to its non-U.S. dollar investments and medium-termnotes along with its indirect international operations. The Company mitigates currency risk through the use of cross-currency swaps and forward contracts. Cross-currency swaps are used to minimize currency risk for certain non-U.S. dollar assets and liabilities through a pre-specified exchange of interest and principal. Forward contracts are used to hedge movements in exchange rates.

#### Credit and other market risks

The Company manages its investments to limit credit and other market risks by diversifying its portfolio among various security types and industry sectors as well as purchasing credit default swaps to transfer some of the risk.

Stressed conditions, volatility and disruptions in global capital markets or in particular markets or financial asset classes can have an adverse effect on the Company, in part because the Company has a large investment portfolio and assets supporting the Company's insurance liabilities are sensitive to changing market factors. Global market factors, including interest rates, credit spread quality, equity prices, real estate markets, foreign currency exchange rates, consumer spending, business investment, government spending, the volatility and strength of the capital markets, deflation and inflation, all affect the business and economic environment and, ultimately, the profitability of the Company's business. Disruptions in one market or asset class can also spread to other markets or asset classes. Upheavals in the financial markets can also affect the Company's business through their effects on general levels of economic activity, employment and customer behavior.

Significant volatility in the financial markets, and government actions taken in response, may exacerbate some of the risks the Company faces. The Company holds investments in energy and certain other commodity sectors, which have experienced similar overall market volatility and declines. With the continued weaker economic outlook in these sectors, there may be an increase in reported default rates or potential downgrades to the ratings of companies exposed to these sectors. In addition, concerns over the solvency of certain countries and sovereignties and the entities that have significant exposure to their debt have created market volatility. This volatility may continue to affect the performance of various asset classes until there is an ultimate resolution of the sovereign debt related concerns.

As set-based fees calculated as a percentage of the separate account assets are a source of revenue to the Company. Gains and losses in the investment markets may result in corresponding increases and decreases in the Company's separate account assets and related revenue.

#### Political Uncertainties

Political events, such as the ongoing volatility with respect to the European Union, may trigger or exacerbate the risk factors described above. Whether those underlying risk factors are driven by politics or not, the Company's dynamic approach to managing risks enables us to utilize the mitigating actions described above to attempt to reduce the potential impact of each underlying risk factor on the Company.

#### b. Litigation

The Company is involved in litigation arising in the normal course of business, which seeks compensatory damages, punitive damages and equitable remedies. Although the Company is not aware of any actions or allegations that reasonably should give rise to a material adverse impact to the Company's financial position or liquidity, the outcome of litigation cannot be foreseen with certainty. It is the opinion of management that the ultimate resolution of these matters will not materially impact the Company's financial position or liquidity. However, the outcome of a particular proceeding may be material to the Company's results of operations for a particular period depending upon, among other factors, the size of the loss and the level of the Company's results of operations for the period.

In 2009, several lawsuits were filed as putative class actions and later consolidated before the federal district court in Colorado in connection with the investment performance of Oppenheimer Rochester California Municipal Fund (the California Fund Suit). This fund was advised by OppenheimerFunds, Inc. (OFI) and distributed by its subsidiary OppenheimerFunds Distributor, Inc. (OFDI). The plaintiffs in the California Fund Suit asserted claims against MassMutual, OFI, OFDI and certain present and former trustees and officers of the fund under federal securities laws and allege, among other things, the disclosure documents of the fund contained misrepresentations and omissions, that the investment policies of the fund were not followed, and that the fund and the other defendants violated federal securities laws and regulations and certain state laws. In March 2015, the district court granted the plaintiffs' motion to certify a class and to appoint class representatives and class counsel. In December 2015, the appeals court denied defendants' petition to appeal the district court's class certification order. Motions for summary judgment are pending. Mediation occurred in January 2017, which did not result in a settlement. The expected settlement does not have a significant financial impact on the Company.

In 2009, MassMutual was named as a defendant in a lawsuit filed in North Carolina state court related to certain losses in a bank-owned life insurance (BOLI) policy is sued by MassMutual. The plaintiff alleges, among other things, fraud, breach of contract and breach of fiduciary duty claims against MassMutual, and it seeks to recover losses arising from investments pursuant to the BOLI policy. The parties have completed discovery and are preparing for trial. In May 2015, the plaintiff voluntarily dismissed its complaint and refiled the case. MassMutual believes it has substantial defenses and will continue to vigorously defend itself in this action. No reasonable estimate can be made at this time regarding the potential liability, if any, or the amount or range of any loss that may result from this suit.

In 2010, Christina Chavez (Chavez) filed a putative class action complaint in California state court against MassMutual. Chavez alleges that MassMutual breached its obligations to its termlife policyholders in California by not paying dividends on those policies. The parties are engaged in active discovery. In 2014, the parties participated in a mediation of their dispute, which did not result in a settlement. In July 2015, the judge certified a subclass consisting of one of twenty-sixpotential termproducts at issue in this case. All remaining subclasses were dismissed without prejudice. Fact discovery is complete and a trial has been set for June 2017. MassMutual believes it has substantial defenses and will continue to vigorously defend itself in this action. No reasonable estimate can be made at this time regarding the potential liability, if any, or the amount or range of any loss that may result from this claim.

In 2012, Karen Bacchi filed a putative class action complaint against MassMutual in federal court in Massachusetts alleging that MassMutual breached its contracts by allegedly failing to distribute surplus in excess of the statutorily prescribed limit. In January 2017, the parties reached a resolution to settle the lawsuit for \$38 million, which was recorded in December 2016 as a combination of policyholders' benefits, dividends to policyholders and general insurance expenses that include legal fees and other costs. The parties are in the process of seeking the court's approval of the settlement, which is expected to occur in 2017.

In 2013, seven participants in the MassMutual Thrift Plan (the Thrift Plan) filed a putative class action complaint in federal court in Massachusetts. The complaint alleged, among other things, that MassMutual, the Investment Fiduciary Committee, the Thrift Plan Administrative Committee and individually named "fiduciaries" breached their duties by allowing the Thrift Plan to pay excessive fees and by engaging in self-dealing. In June 2016, the parties reached an agreement to settle the matter. In November 2016, the court entered a final order and judgment approving the settlement. The final settlement did not have a significant financial impact on MassMutual.

In January 2016, Deborah Bishop-Bristol filed a putative class action complaint against MassMutual in federal court in Connecticut. The lawsuit alleges that MassMutual breached its fiduciary duty by controlling the crediting rate, and therefore the compensation earned on the stable value products. Further, the complaint alleges that MassMutual failed to adequately disclose the pricing spread and accepted excessive fees for investment, management and administrative services. In April 2016, the court granted MassMutual's motion to transfer the case to federal court in Massachusetts. The court recently dismissed all of the plaintiff's claims and the plaintiff has filed an amended complaint. MassMutual believes that it has substantial defenses and will vigorously defend itself in this action. No reasonable estimate can be made regarding the potential liability, if any, or the amount or range of any loss that may result from this claim.

#### c. Regulatory matters

The Company is subject to governmental and administrative proceedings and regulatory inquiries, examinations and investigations in the ordinary course of its business. In connection with regulatory inquiries, examinations and investigations, the Company has been contacted by various regulatory agencies including, among others, the Securities and Exchange Commission, the U.S. Department of Labor and various state insurance departments and state attomeys general. The Company has cooperated fully with these regulatory agencies with regard to their inquiries, examinations and investigations and has responded to information requests and comments.

Market volatility in the financial services industry over the last several years has contributed to increased scrutiny of the entire financial services industry. Therefore, the Company believes that it is reasonable to expect that proceedings, regulatory inquiries, examinations and investigations into the insurance and financial services industries will continue for the foreseeable future. Additionally, new industry-wide legislation, rules and regulations could significantly affect the insurance and financial services industries as a whole. It is the opinion of management that the ultimate resolution of these regulatory inquiries, examinations, investigations, legislative and regulatory changes of which we are aware will not materially impact the Company's financial position or liquidity. However, the outcome of a particular matter may be material to the Company's operating results for a particular period depending upon, among other factors, the financial impact of the matter and the level of the Company's results of operations for the period.

#### d. Commitments

In the normal course of business, the Company enters into letter of credit arrangements. As of March 31, 2017, the Company had approximately \$139 million of outstanding letter of credit arrangements and \$144 million as of December 31, 2016. As of March 31, 2017 and December 31, 2016, the Company did not have any funding requests attributable to these letter of credit arrangements.

### 17. Related party transactions

No significant changes.

#### 18. Business combinations and goodwill

No significant changes.

#### 19. Subsequent events

Management of the Company has evaluated subsequent events through May 10, 2017, the date the financial statements were available to be issued.

On April 13, 2017, MassMutual is sued a \$500 million funding agreement with a 2.5% fixed rate and a 5-year maturity.

No other events have occurred subsequent to the date of the Statements of Financial Position and before the date of evaluation that would require disclosure.
