## 1. Nature of operations

Massachusetts Mutual Life Insurance Company (MassMutual or the Company), a mutual life insurance company domiciled in the Commonwealth of Massachusetts, and its domestic life insurance subsidiaries provide individual and group life insurance, disability insurance (DI), individual and group annuities and guaranteed interest contracts (GIC) to individual and institutional customers in all 50 states of the United States of America (U.S.), the District of Columbia and Puerto Rico. Products and services are offered primarily through the Company's MassMutual Financial Advisors (MMFA), MassMutual Strategic Distributors (MMSD), Institutional Solutions (IS) and Worksite distribution channels.

The affiliated distribution channel is a sales force of financial professionals that operate in the U.S. The affiliated distribution channel sells individual life, individual annuities, hybrid life and long term care (LTC) and DI. The Company's MMSD channel sells life insurance, disability, annuity, and hybrid life and LTC solutions through a network of third-party distribution partners. The Company's IS distribution channel places group annuities, life insurance and GIC primarily through retirement advisory firms, actuarial consulting firms, investment banks, insurance benefit advisors and investment management companies. The Company's Worksite channel works with advisors and employers across the country to provide American workers with voluntary and executive benefits such as group whole life, critical illness, accident insurance and DI, through the workplace.

## 2. Summary of significant accounting policies

## a. Basis of presentation

The interim statutory financial statements have been prepared in conformity with the statutory accounting practices of the National Association of Insurance commissioners (NAIC) and the accounting practices prescribed or permitted by the Commonwealth of Massachusetts Division of Insurance.

The interim statutory financial statements and notes as of June 30, 2024 and December 31, 2023, and for the six months ended June 30, 2024 and 2023, are unaudited. The Interim Statutory Statement of Financial Position as of December 31, 2023 has been derived from the audited financial statements at that date, but do not include all of the information and footnotes required by statutory accounting practices for complete financial statements. These interim statutory financial statements, in the opinion of management, reflect the fair presentation of the financial position, results of operations, changes in surplus and cash flows for the interim periods. These interim statutory financial statements and notes should be read in conjunction with the statutory financial statements and notes thereto included in the Company's 2023 audited yearend financial statements as these interim statutory financial statements from yearend 2023. The results of operations for the interim periods should not be considered indicative of results to be expected for the full year.

For the full description of accounting policies, see Note 2. "Summary of significant accounting policies" of Notes to Statutory Financial Statements included in the Company's 2023 audited yearend financial statements.

#### b. Corrections of errors and reclassification

For the six months ended June 30, 2024, corrections of prior years' errors were recorded in surplus, net of tax:

		Six M	onths En	ded June 30	), 2024						
	Increase (Decrease) to:										
	F	Prior	Cu	ırrent	А	sset					
	Y	ears'	Y	ear	or L	iability

Partnerships and limited liability companies		(3)		(3)		(3)					
Total	\$	(125)	\$	(125)							

#### c. Common stocks – subsidiaries and affiliates

Common stocks of unconsolidated subsidiaries, primarily C.M. Life Insurance Company, MML Bay State Life Insurance Company, MMHLLC, Glidepath Holdings Inc. (Glidepath) and MM Investment Holding (MMIH), are accounted for using the statutory equity method. The Company accounts for the value of MMHLLC at its underlying U.S. generally accepted accounting principles (U.S. GAAP) equity value less adjustments for the limited statutory basis of accounting related to foreign insurance subsidiaries and controlled affiliates entities as well as an adjustment of \$519 million as of June 30, 2024 for a portion of its noncontrolling interests. Glidepath is valued on its underlying GAAP equity with adjustment to recognize its investment in MassMutual Ascend Life Insurance Company (formerly known as Great American Life Insurance Company) and other subsidiaries and affiliated entities (MM Ascend) based on MM Ascend's underlying statutory surplus, adjusted for any unamortized goodwill that would have been recognized under the statutory purchase method. Operating results, less dividends declared, for MMHLLC, Glidepath and MMIH are reflected as net unrealized capital gains in the Statutory Statements of Changes in Surplus. Dividends declared from MMHLLC, Glidepath and MMIH are recorded in net investment income when declared and are limited to MMHLLC, Glidepath and MMIH's U.S. GAAP retained earnings. The cost basis of common stocks – subsidiaries and affiliates is adjusted for impairments deemed to be other than temporary.

#### 3. New accounting standards

#### Adoption of new accounting standards

In August 2023, the NAIC adopted INT 23-01T — Disallowed Interest Maintenance Reserve (IMR) ("INT 23-01T"). INT 23-01T provides optional, limited-term guidance for the assessment of disallowed IMR for up to 10% of adjusted general account capital and surplus. An insurer's capital and surplus must first be adjusted to exclude certain "soft assets" including net positive goodwill, electronic data processing equipment and operating system software, net deferred tax assets and admitted disallowed IMR. An insurer will only be able to admit the negative IMR if the insurer's risk-based capital is over 300% authorized control level after adjusting to remove the assets described above.

As adopted, negative IMR may be admitted first in the insurer's general account and then, if all disallowed IMR in the general account is admitted and the percentage limit is not reached, to the separate account proportionately between insulated and noninsulated accounts. If the insurer can demonstrate historical practice in which acquired gains from derivatives were also reversed to IMR (as liabilities) and amortized, there is no exclusion for derivatives losses. INT 23-01T was adopted by the Company as of September 30, 2023 and will be effective through December 31, 2025. To the extent the Company's IMR balance is a net negative, the effects of INT 23-01T will be reflected in the Company's financial position, results of operations, and financial statement disclosures. The Company has adopted this guidance and the adoption resulted in an admitted disallowed IMR of \$1,112 million for MassMutual.

In March 2023, the NAIC adopted modifications to SSAP No. 34 – Investment Income Due and Accrued, effective December 31, 2023. The modifications require additional disclosures and data capture related to gross, non-admitted and admitted amounts for interest income due and accrued, deferred interest, and paid-in-kind (PIK) interest. In August 2023, the NAIC adopted revisions to further clarify the PIK interest disclosure in SSAP No. 34, effective December 31, 2023. The revisions clarify that decreasing amounts to principal balances are first applied to any PIK interest included in the principal balance. The original principal would not be reduced until the PIK interest had been fully eliminated from the balance. The revisions also provide a practical expedient for determining the PIK interest in the cumulative balance by subtracting the original principal/ par value from the current principal/ par value, with the resulting PIK interest not to go less than zero. The modifications did not have a material effect on the Company's financial statements.

In December 2023, the NAIC adopted revisions, effective January 1, 2024, to avoid allocating realized gains or losses from bond sales to the IMR when sold before a rating downgrade. Revisions were also made to avoid allocating realized gains or losses from mortgage loan sales when there is a credit loss allowance, where payments are not 90 days past due. Revisions were also made to update guidance on changes in credit ratings used to allocate credit or interest rate related gains or losses, requiring identification of realized losses from acute credit events to be allocated to AVR. The modifications did not have a material effect on the Company's financial statements.

In March 2024, the NAIC adopted revisions to the requirements of audit and admissibility in SSAP No. 97 – Investments in Subsidiary, Controlled and Affiliated Entities, effective March 16, 2024, to better align with the guidance on the look-through methodology. The revisions allow for admitting audited investments in entities owned by unaudited downstream noninsurance holding company SCA entity. The modifications did not have a material effect on the Company's financial statements.

#### Future adoption of new accounting standards

In August 2023, the NAIC adopted revisions to clarify and incorporate a new bond definition within disclosures SSAP No. 26 – Bonds, SSAP No. 43 – Asset-Backed Securities, and other related SSAPs, which will become effective January 1, 2025. The revisions were issued in connection with its principle-based bond definition project, "the Bond Project".

The Bond Project began in October 2020 through the development of a principle-based bond definition to be used for all securities in determining whether they qualify for reporting on the statutory annual statement Schedule D. Within the new bond definition, bonds are classified as an "issuer credit obligation" or an "asset-backed security."

An "issuer credit obligation" is defined as a bond where repayment is supported by the general creditworthiness of an operating entity, and an "asset-backed security" is defined as a bond issued by an entity created for the primary purpose of raising capital through debt backed by financial assets. The revisions to SSAP No. 26 reflect the principle-based bond definition, and SSAP No. 43 provides accounting and reporting guidance for investments that qualify as asset-backed securities under the new bond definition. Upon adoption, investments that do not qualify as bonds will not be permitted to be reported as bonds on Schedule D, Part 1 thereafter as there will be no grandfathering for existing investments that do not qualify under the revised SSAPs. The Company is currently assessing the impacts of the adopted SSAP No. 26, SSAP No. 43 and other related SSAPs in relation to the financial statements.

In March 2024, the NAIC adopted revisions to SSAP No. 21R - Other Admitted Assets, effective January 1, 2025, clarifying that residuals follow the effective yield approach with a cap and providing an election for the cost recovery method. The modifications are not expected to have a material effect on the Company's financial statements.

Effective January 1, 2025, revisions will be made to short-term investments, which include excluding additional investment types from being reported as cash equivalents or short-term investments regardless of maturity date of the investment at the date of acquisition. Investments will be eliminated from being reported as cash equivalents or short-term investments unless they would qualify under SSAP No. 26R—Bonds as an issuer credit obligation. Such investments will then only qualify as a cash equivalent or short-term investment if they have a maturity date within 3-months (cash equivalents) or 12-months (short-term) from the date of acquisition or meet the specifics requirements for money market mutual funds or cash pooling arrangement.

The NAIC adopted revisions to various SSAPs at the Spring National Meeting for investments in tax credits and acquired tax credits in response to the comments received, as well as updated annual statement reporting categories for tax credit investment risk-based capital. These revisions are in addition to the previous ones, which include broad criteria to scope in various tax credit programs, including solar programs and state specific programs. Proportional amortization will be the measurement approach as with existing low-income housing tax credits, which means recording amortization of the investment in the partnership through net investment income and use of the tax credits in the appropriate tax line. The adopted revisions will be effective on January 1, 2025. The Company is assessing the potential impact on the Company's financial statements.

## 4. Fair value of financial instruments

The following presents a summary of the carrying values and fair values of the Company's financial instruments:

$\begin{tabular}{ c c c c c c c c c c c c c c c c c c c$				June 30	. 2024

The Company reviews the fair value hierarchy classifications each reporting period. Changes in the observability of the valuation attributes and the level of market activity may result in a reclassification of certain financial assets or liabilities between fair value hierarchy classifications. Such reclassifications are reported as transfers between levels in the beginning fair value for the reporting period in which the changes occur.

The following presents changes in the Company's Level 3 assets carried at fair value:

Other transfers include assets that are either no longer carried at fair value or have just begun to be carried at fair value, such as assets with no level changes but a change in the lower of cost or market carrying basis. Industrial and miscellaneous bonds in other contain assets that are now carried at fair value due to ratings changes and assets are no longer carried at fair value where the fair value is now higher than the book value.

Level 3 transfers in are assets that are consistently carried at fair value but have had a level change. Common stocks unaffiliated assets were transferred from Level 2 to Level 3 due to a change in the observability of pricing inputs, at the beginning fair value for the reporting period.

## 5. Investment

The Company maintains a diversified investment portfolio. Investment policies limit concentration in any asset class, geographic region, industry group, economic characteristic, investment quality or individual investment.

#### a. Bonds

The carrying value and fair value of bonds were as follows:

		June 3	0, 2024	4	
		Gross		Gross	
	Carrying	Unrealized	U	nrealized	Fair
	 Value	Gains		Losses	Value
		(In M			
U.S. government and agencies	\$ 5,436	\$ 16	\$	553	\$ 4,899

Total	\$ 144,433	\$	1,068	\$	10,099	\$ 135,401

The December 31, 2023 gross unrealized losses exclude \$127 million of losses included in the carrying value. These losses include \$126 million from NAIC Class 6 bonds and \$1 million from RMBS and CMBS whose ratings were obtained from third-party modelers. These losses were primarily included in industrial and miscellaneous or parent, subsidiaries and affiliates.

As of June 30, 2024, investments in structured and loan-backed securities that had unrealized losses, where were not recognized in earnings, had a fair value of \$84,478 million. Securities in an unrealized loss position for less than 12 months had a fair value of \$15,231 million and unrealized losses of \$305 million. Securities in an unrealized loss position for greater that 12 months had a fair value of \$69,246 million and unrealized losses of \$10,838 million. These securities were primarily categorized as industrial and miscellaneous or parent, subsidiaries and affiliates.

As of December 31, 2023, investments in structured and loan-backed securities that had unrealized losses, where were not recognized in earnings, had a fair value of \$17,178 million. Securities in an unrealized loss position for less than 12 months had a fair value of \$2,151 million and unrealized losses of \$48 million. Securities in an unrealized loss position for greater that 12 months had a fair value of \$15,027 million and unrealized losses of \$1,261 million. These securities were primarily categorized as industrial and miscellaneous or parent, subsidiaries and affiliates.

In the course of the Company's investment management activities, securities may be sold and reacquired within 30 days to enhance the Company's yield on its investment portfolio. The Company did not sell any securities with the NAIC Designation 3 or below for the six months ended June 30, 2024 or 2023 that were reacquired within 30 days of the sale date.

On April 24, 2024, the Company announced it became a minority equity owner in ATLAS SP Partners (ATLAS) and a capital partner to the ATLAS platform. As part of the multi-billion-dollar commitment, the Company also agreed to invest \$500 million in Apollo's Asset Backed Finance, which was finalized in May 2024.

## Residential mortgage-backed exposure

RMBS are included in the U.S. government and agencies, special revenue and industrial and miscellaneous bond categories. the Alt-a category includes option adjustable-rate mortgages and the subprime category includes 'scratch and dent' or reperforming pools, high loan-to-value pools and pools where the borrowers have very impaired credit but the average loan-to-value is low, typically 70% or below. In identifying Alt-A and subprime exposure, management used a combination of qualitative and quantitative factors, including FICO scores and loan-to-value ratios.

As of June 30, 2024, RMBS had a total carrying value of \$3,618 million and a fair value of \$3,638 million of which approximately 3%, based on carrying value, was classified as Alt-A. Alt-A and subprime RMBS had a total carrying value of \$2,023 million of which approximately \$2,040 million. As of December 31, 2023, RMBS had a total carrying value of \$3,775 million and a fair value of \$3,756 million of which approximately 4%, based on carrying value, was classified as Alt-A. Alt-A and subprime RMBS had a total carrying value of \$1,326 million and a fair value of \$1,312 million.

#### b. Preferred stocks

No significant changes.

#### c. Common stocks – subsidiaries and affiliates

MMHLLC paid \$785 million in dividends to MassMutual for the six months ended June 30, 2024, \$630 million of which were declared in 2023, and paid \$730 million in dividends to MassMutual for the six months ended June 30, 2023, \$450 million of which were declared in 2022.

MassMutual contributed capital of \$53 million in dividends to MMHLLC for the six months ended June 30, 2023.

Subsidiaries of MMHLLC are involved in litigation and investigations arising in the ordinary course of their business, which seek compensatory damages, punitive damages and equitable remedies. Although the Company is not aware of any actions or allegations that reasonably could give rise to a material adverse impact to the Company's financial position or liquidity, the outcome of litigation cannot be foreseen with certainty. It is the opinion of management that the ultimate resolution of these matters will not materially impact the Company's financial position or liquidity. However, the outcome of a particular proceeding may be material to the Company's Interim Consolidated Statutory Statements of Changes in Surplus for a particular period depending upon, among other factors, the size of the loss and the level of the Company's changes in surplus for the period.

#### d. Common stocks – unaffiliated

No significant changes.

#### e. Mortgage loans

Mortgage loans are comprised of commercial mortgage loans and residential mortgage loans. The Company's commercial mortgage loans primarily finance various types of real estate properties throughout the U.S., the United Kingdom and Canada. The Company holds commercial mortgage loans for which it is the primary lender or a participant or co-lender in a mortgage loan agreement and mezzanine loans that are subordinate to senior secured first liens. Residential mortgage loans are primarily seasoned pools of homogeneous residential mortgage loans substantially backed by Federal Housing Administration (FHA) and Veterans Administration (VA) guarantees.

The carrying value and fair value of the Company's mortgage loans were as follows:

		June 30	), 2024	ł		)23

## f. Real estate

No significant changes.

#### g. Partnerships and limited liability companies

No significant changes.

#### h. Derivatives

The Company uses derivative financial instruments in the normal course of business to manage risks, primarily to reduce currency, interest rate and duration imbalances determined in asset/liability analyses. The Company also uses a combination of derivatives and fixed income investments to create replicated synthetic investments. These replicated synthetic investments are created when they are economically more attractive than the actual instrument or when similar instruments are unavailable. Replicated synthetic investments are created either to hedge and reduce the Company's credit exposure or to create an investment in a particular asset. The Company held replicated synthetic investments with a notional amount of \$31,987 million as of June 30, 2024 and \$31,687 million as of December 31, 2023, as defined under statutory accounting practices as the result of pairing of a long derivative contract with cash instruments.

The Company's principal derivative exposures to market risk are interest rate risk, which includes inflation and credit risk. Interest rate risk pertains to the change in fair value of the derivative instruments as a result of changes in market interest rates. The Company is exposed to credit-related losses in the event of nonperformance by counterparties to derivative financial instruments. The Company regularly monitors counterparty credit ratings, derivative positions, valuations and the value of collateral posted to ensure counterparties are credit-worthy and the concentration of exposure is minimized and monitors its derivative credit exposure as part of its overall risk management program.

The Company enters derivative transactions through bilateral derivative agreements with counterparties, or through over the counter cleared derivatives with a counterparty and the use of a clearinghouse. To minimize credit risk for bilateral transactions, the Company and its counterparties generally enter into master netting agreements based on agreed upon requirements that outline the framework for how collateral is to be posted in the amount owed under each transaction, subject to certain minimums. For over the counter cleared derivative transactions between the Company and a counterparty, the parties enter into a series of master netting and other agreements that govern, among other things, clearing and collateral requirements. These transactions are cleared through a clearinghouse and each derivative counterparty is only exposed to the default risk of the clearinghouse. Certain interest rate swaps and credit default swaps are considered cleared transactions. These cleared transactions require initial and daily variation margin collateral postings. These agreements allow for contracts in a positive position, in which amounts are due to the Company, to be offset by contracts in a negative position. This right of offset, combined with collateral obtained from counterparties, reduces the Company's credit exposure.

Net collateral pledged to the counterparties was \$373 million as of June 30, 2024, and net collateral pledged by the counterparties was \$421 million as of December 31, 2023. In the event of default, the full market value exposure at risk in a net gain position, net of offsets and collateral, was \$106 million as of June 30, 2024, and \$309 million as of December 31, 2023. The statutory net amount at risk, defined as net collateral pledged and statement values excluding accrued interest, was \$5,140 million as of June 30, 2024, and \$5,003 million as of December 31, 2023.

As of June 30, 2024, the company had the right to rehypothecate or repledge securities totaling \$1,726 million, pledged by the counterparties, of the \$373 million of the net collateral pledged to counterparties. As of December 31, 2023, the company had the right to rehypothecate or repledge securities totaling \$1,444 million, pledged by the counterparties, of the \$421 million of the net collateral pledged to counterparties. There were no securities rehypothecated to other counterparties as of June 30, 2024 or December 31, 2023.

The following summarizes the carrying values and notional amounts of the Company's derivative financial instruments:

The following summarizes gross and net information of derivative assets and liabilities, along with collateral posted in connection with master netting agreements:

#### *i. Repurchase agreements*

The Company has entered into repurchase agreements whereby the Company sells securities and simultaneously agrees to repurchase the same or substantially the same securities. These repurchase agreements are accounted for as collateralized borrowings with the proceeds from the sale of the securities recorded as a liability and the underlying securities continue to be recorded as an investment by the Company. Earnings on these investments are recorded as investment income and the difference between the proceeds and the amount at which the securities will be subsequently reacquired is amortized as interest expense. Repurchase agreements are used as a tool for overall portfolio management to help ensure the Company maintains adequate assets in order to provide yield, spread and duration to support liabilities and other corporate needs.

The Company provides collateral, as dictated by the repurchase agreements, to the counterparty in exchange for a loan. If the fair value of the securities sold becomes less than the loan, the counterparty may require additional collateral.

The carrying value, which is at cost, reported in the Company's liabilities as repurchase agreements approximates the fair value.

The following table provides contractual maturity, maximum balance during the year, and ending balance for bilateral repurchase agreements:

				June	e 30,			
		20			2	023		
	Ν	Maximum		Ending	N	Maximum		Ending
		Balance		Balance	]	Balance	-	Balance
				(In Mi	illions)			
From 1 Week to 1 Month	\$	178	\$	178	\$	596	\$	-
Greater than 1 Month to 3 Months	\$	\$ 2,711		2,537	\$	3,615	\$	2,910
Greater than 3 Months to 1 Year	\$	2,712	\$	722	\$	-	\$	-

The company did not have any repurchase agreements where securities sold and/or acquired resulted in default as of June 30, 2024 and December 31, 2023.

The following table presents the fair value and amortized cost of securities sold under bilateral repurchase agreement transactions, which were all NAIC rating of 1, for the periods ending June 30, 2024 and 2023:

	Maximu	m Balance	Endi	ng Balance

June 30, 2023	\$ -	\$	92	\$	2,925	\$ -

The following table presents cash collateral received that has been reinvested, the total reinvested cash and the aggregate amortized cost and fair value of the invest asset acquired with the cash collateral for the periods ending June 30, 2024 and 2023:

		1 to 2	Ye	ars		2 to 3	Ye	ars		> 3	Yea	rs
	Amor	tized		Fair	А	mortized		Fair	А	mortized		Fair
	Co	ost		Value		Cost		Value		Cost		Value
Maximum Balance June 30, 2024	\$	-	\$	-	\$	1,125	\$	1,139	\$	2,674	\$	2,310
Ending Balance June 30, 2024	\$	-	\$	-	\$	1,125	\$	1,139	\$	2,674	\$	2,310

To help manage the mismatch of maturity dates between the security lending transactions and the related reinvestment of the collateral received, the Company invests in highly liquid assets.

The company did not have any repurchase agreements where cash collateral received was reinvested as of June 30, 2024 and December 31, 2023.

The following table presents liability recognized to return cash collateral, and the liability recognized to return securities received as collateral as required pursuant to the terms of the secured borrowing transactions for the periods ending June 30, 2024 and 2023:

	Maximu	n Bala	nce		Ending	Balano	ce

June 30, 2023	\$ 89	\$	3,031	\$	4	\$	2,918

The company did not have any reverse repurchase transactions accounted for as secured borrowings as of June 30, 2024 and December 31, 2023.

The Company did not have any repurchase agreements transactions accounted for as a sale as of June 30, 2024 and December 31, 2023.

The Company did not have any reverse repurchase agreements transactions accounted for as a sale as of June 30, 2024 and December 31, 2023.

#### *j. Net investment income*

Net investment income, including IMR amortization, comprised the following:

	Six Mon Jun	ths En e 30,	ded
	 2024		2023
	 (In M	illions	)
Bonds	\$ 3,972	\$	3,381
Preferred stocks	12		14
Common stocks - subsidiaries and affiliates	155		280
Common stocks - unaffiliated	56		67
Mortgage loans	570		517
Policy loans	500		564
Real estate	39		36
Partnerships and limited liability companies	476		209
Derivatives	(236)		38
Cash, cash equivalents and short-term investments	203		157
Other	 163		113
Subtotal investment income	5,910		5,376
Amortization of the IMR	(55)		(28)
Investment expenses	 (526)		(512)
Net investment income	\$ 5,329	\$	4,836

## k. Net realized capital losses

Net realized capital losses, which include other-than-temporary impairments (OTTI) and are net of deferral to the IMR, comprised the following:

	Six Mon June	ths En e 30,	ded
	2024		2023
	 (In M	illions	5)
Bonds	\$ (253)	\$	(440)
Preferred stocks	(6)		-
Common stocks - subsidiaries and affiliates	21		-
Common stocks - unaffiliated	19		11
Mortgage loans	(41)		(32)
Partnerships and limited liability companies	(48)		(134)
Derivatives	(247)		(225)
Other	 7		(17)
Net realized capital before federal and state taxes and deferral to the IMR	(548)		(837)
Net federal and state tax benefit	 47		154
Net realized capital losses before deferral to the IMR	(501)		(683)
Net after tax capital losses deferred to the IMR	 228		240
Net realized capital losses	\$ (273)	\$	(443)

OTTI, included in the realized capital losses, consisted of the following:

	Six Mont June	ths End e 30,	led		
	 2024		2023		
	 (In Millions)				
Bonds	\$ (102)	\$	(100)		
Mortgage loans	-		(13)		
Partnerships and limited liability companies	 (45)		(134)		
Total OTTI	\$ (147)	\$	(247)		

The Company recognized OTTI of \$9 million for the six months ended June 30, 2024 and \$14 million for the six months ended June 30, 2023 on structured and loan-backed securities, which are included in bonds, primarily due to the present value of expected cash flows being less than the amortized cost.

#### 6. Federal income taxes

No significant changes.

#### 7. Other than invested assets

As of June 30, 2024, the Company had \$1,285 million of disallowed IMR in aggregate and in the general account.

As of June 30, 2024, the Company had \$1,285 million of disallowed IMR admitted in the general account.

As of June 30, 2024, the calculated adjusted general capital and surplus was \$24,677 million.

As of June 30, 2024, the percentage of adjusted general capital and surplus for which the admitted disallowed IMR represents was 5%.

The following represents allocated gains (losses) to IMR from derivatives:

	June 3	0, 2024
	(In M	illions)
Unamortized fair value derivative gain	\$	2,832
Unamortized fair value derivaitve losses		(3,878)
Total allocated gains (losses) to IMR from derivatives	\$	(1,046)

When the Company sells bonds and recognizes losses due to interest-rate related factors, and the realized losses are transferred to the IMR, the sales proceeds are generally used for reinvestment as governed by prudent asset liability management (ALM) policies and procedures. Such sales of bonds are intermittently used to meet liquidity needs and managed within the ALM framework.

IMR losses for fixed income related derivatives were in accordance with documented risk management procedures, as well as the Company's derivative use plans, and reflect the same historical treatment of derivative gains reversed to IMR and amortized rather than immediately recognized as realized gain upon termination.

As of the period ended June 30, 2024, the IMR asset admitted under the currently adopted statutory accounting interpretation includes approximately \$134 million, net of tax, related to various Funds Withheld (FWH) reinsurance treaties. Included in the FWH assets are reimbursements of capital losses on the invested assets to back the ceded reinsurance liabilities and are recorded as an adjustment to the income statement. Both the IMR and FWH assets are admitted under statutory accounting guidance.

#### 8. *Policyholders' liabilities*

#### a. Liabilities for deposit-type contracts

On January 17, 2024, MassMutual issued a \$650 million funding agreement with a 4.85% fixed rate and a 5-year maturity.

On January 29, 2024, MassMutual issued a \$300 million funding agreement with a floating rate based on the Secured Overnight Financing Rate (SOFR) and a 3-year maturity.

On April 9, 2024, MassMutual issued a \$1.2 billion funding agreement of which \$850 million has a 5.10% fixed rate and a 3-year maturity and \$350 million has a floating rate based on the SOFR plus the spread and a 3-year maturity.

On May 30, 2024, MassMutual issued a \$500 million funding agreement with a 5.15% fixed rate and a 5-year maturity.

#### b. Additional liability for annuity contracts

Certain variable annuity contracts include additional death or other insurance benefit features, such as guaranteed minimum death benefits (GMDB), guaranteed minimum income benefits (GMIB), guaranteed minimum accumulation benefits (GMAB) and guaranteed lifetime withdrawal benefits (GLWB). In general, living benefit guarantees require the contract holder or policyholder to adhere to a company approved asset allocation strategy. Election of these benefit guarantees is generally only available at contract issue.

The following shows the changes in the liabilities for GMDB, GMIB, GMAB and GLWB (in millions):

Liability as of January 1, 2023	\$ 55
Incurred guarantee benefits	2
Paid guarantee benefits	(8)
Liability as of December 31, 2023	49
Incurred guarantee benefits	(35)
Paid guarantee benefits	 (3)
Liability as of June 30, 2024	\$ 11

The following summarizes the account values, net amount at risk and weighted average attained age for variable annuity contracts with GMDB, GMIB, GMAB and GLWB classified as policyholders' reserves and separate account liabilities. The net amount at risk is defined as the minimum guarantee less the account value calculated on a policy-by-policy basis, but not less than zero.

	June 30, 2024 December 31, 2023													
				Net	Weighted				Net	Weighted				
	A	Account	I	Amount	Average		Account	1	Amount	Average				
		Value		at Risk	Attained Age		Value		Value		Value at Risk		at Risk	Attained Age
		(\$ In Millions)												
GMDB	\$	8,418	\$	80	66	\$	8,572	\$	25	66				
<b>GMIB</b> Basic		435		4	73		449		7	73				
GMIB Plus		1,238		427	69		1,240		448	69				
GMAB		1,246		7	63		1,400		20	63				
GLWB		86		13	75		94		15	75				

As of June 30, 2024, the GMDB account value above consists of \$3,786 million of modified coinsurance (Modco) assumed within the separate accounts. As of December 31, 2023, the GMDB account value above consists of \$3,712 million of modified coinsurance (Modco) assumed within the separate accounts.

#### 9. Reinsurance

No significant changes.

#### 10. Withdrawal characteristics

No significant changes.

## 11. Debt

MassMutual issues commercial paper in the form of Notes in minimum denominations of \$250 thousand up to a total aggregation of \$1,000 million with maturity dates up to a maximum of 270 days from the date of issuance. Noninterest bearing Notes are sold at par less a discount representing an interest factor. Interest bearing Notes are sold at par. The Notes are not redeemable or subject to voluntary prepayments by MassMutual. The Notes have a carrying value and face amount of \$499 million as of June 30, 2024 and \$50 million as of December 31, 2023. Notes issued in 2024 had interest rates ranging from 5.35% to 5.41% with maturity dates ranging from 1 to 58 days. Interest expense for commercial paper was \$7 million for the quarter ended June 30, 2024 and \$5 million for the quarter ended June 30, 2023.

In June 2024, the Company borrowed \$500 million from Federal Home Loan Bank of Boston with a 5.53% fixed rate, which matures on July 26, 2024.

## 12. Employee benefit plans

The Company sponsors multiple employee benefit plans, providing retirement, life, health and other benefits to employees, certain employees of unconsolidated subsidiaries, agents, general agents and retirees who meet plan eligibility requirements.

### a. Pension plans

The Company sponsors funded and unfunded noncontributory defined benefit pension plans for its eligible employees, agents and retirees.

The funded qualified defined benefit plan generally provides benefits under a cash balance formula based on age, service and salary during the participants' careers. Certain eligible participants may be entitled to benefits under a legacy defined benefit formula. The Company's policy is to fund the qualified pension plan in accordance with the Employee Retirement Income Security Act of 1974. There were no contributions in 2024 and 2023.

The Company has announced there will be no new benefit accruals under the plan after Dec. 31, 2025.

*b-f.* No significant changes.

## g. Net periodic cost

The net periodic cost represents the annual accounting income or expense recognized by the Company and is included in general insurance expenses in the Interim Statutory Statements of Operations. The net periodic cost recognized is as follows:

	Six Months Ended June 30,								
	2	024	2	023		2024		2023	
	Pension					Other Postretirement			
	Benefits					Benefits			
	(In Millions)								
Service cost	\$	49	\$	43	\$	4	\$	4	
Interest cost		61		62		7		8	
Expected return on plan assets		(85)		(84)		-		-	
Amortization of unrecognized losses and (gains)		10		13		(4)		(4)	
Amortization of unrecognized prior service benefit		_				(2)		(3)	
Total net periodic expense	\$	35	\$	34	\$	5	\$	5	

## 13. Employee compensation plans

No significant changes.

## 14. Surplus notes

No significant changes.

## 15. Presentation of the Interim Statutory Statements of Cash Flows

The following table presents those transactions that have affected the Company's recognized assets or liabilities but have not resulted in cash receipts or payments during the six months ended June 30, 2024 and 2023. Accordingly, the Company has excluded these non-cash activities from the Statutory Statements of Cash Flows for the six months ended June 30, 2024 and 2023.

	e.	Six Mon June	ths E e 30,	nded
		2024		2023

Net investment income payment-in-kind bonds		16		7
Transfer of bonds to partnerships and limited liability companies		-		122

## 16. Business risks, commitments and contingencies

#### a. Risks and uncertainties

The Company operates in a business environment subject to various risks and uncertainties. The principal risks include insurance and underwriting risks, investment and interest rate risks, currency exchange risk and credit risk. The combined impact of these risks could have a material, adverse effect on the Company's financial statements or result in operating losses in future periods. The Company employs the use of reinsurance, portfolio diversification, asset/liability management processes and other risk management techniques to mitigate the impact of these risks. The interim risks and uncertainties disclosure should be read in conjunction with the statutory disclosure in the Company's 2023 audited year-end financial statements.

#### Insurance and underwriting risks

The Company prices its products based on estimated benefit payments reflecting assumptions with respect to mortality, morbidity, longevity, persistency, interest rates and other factors. If actual policy experience emerges that is significantly and adversely different from assumptions used in product pricing, the effect could be material to the profitability of the Company. For participating whole life products, the Company's dividends to policyholders primarily reflect the difference between actual investment, mortality, expense and persistency experience and the experience embedded in the whole life premiums and guaranteed elements. The Company also reinsures certain life insurance and other LTC insurance policies to mitigate the impact of its underwriting risk.

#### Investment and interest rate risks

The fair value, cash flows and earnings of investments can be influenced by a variety of factors including changes in interest rates, credit spreads, equity markets, portfolio asset allocation and general economic conditions. The Company employs a rigorous asset/liability management process to help mitigate the economic impacts of various investment risks, in particular, interest rate risk. By effectively matching the market sensitivity of assets with the liabilities they support, the impact of interest rate changes is addressed, on an economic basis, as the change in the value of the asset is offset by a corresponding change in the value of the supported liability. The Company uses derivatives, such as interest rate swaps and swaptions, as well as synthetic assets to reduce interest rate and duration imbalances determined in asset/liability analyses.

The levels of U.S. interest rates are influenced by U.S. monetary policies and by the relative attractiveness of U.S. markets to investors versus other global markets. As interest rates increase, certain debt securities may experience amortization or prepayment speeds that are slower than those assumed at purchase, impacting the expected maturity of these securities and the ability to reinvest the proceeds at the higher yields. Rising interest rates may also result in a decrease in the fair value of the investment portfolio. As interest rates decline, certain debt securities may experience accelerated amortization and prepayment speeds than what was assumed at purchase. During such periods, the Company is at risk of lower net investment income as it may not be able to reinvest the proceeds at comparable yields. Declining interest rates may also increase the fair value of the investment portfolio.

Interest rates also have an impact on the Company's products with guaranteed minimum payouts and on interest credited to account holders. As interest rates decrease, investment spreads may contract as crediting rates approach minimum guarantees, resulting in an increased liability.

In periods of increasing interest rates, policy loans, surrenders and withdrawals may increase as policyholders seek investments with higher perceived returns. This could result in cash outflows requiring the Company to sell invested assets at a time when the prices of those assets are adversely affected by the increase in market interest rates, which could cause the Company to realize investment losses.

#### Currency exchange risk

The Company has currency risk due to its non-U.S. dollar denominated investments and medium-term notes along with its indirect international operations. The Company mitigates a portion of its currency risk through the use of cross-currency swaps and forward contracts. Cross-currency swaps are used to minimize currency risk for certain non-U.S. dollar assets and liabilities through a pre-specified exchange of interest and principal. Forward contracts are used to hedge movements in exchange rates.

#### Credit and other market risks

The Company manages its investments to limit credit and other market risks by diversifying its portfolio among various security types and industry sectors as well as purchasing credit default swaps to transfer some of the risk.

Stressed conditions, volatility and disruptions in global capital markets or in particular markets or financial asset classes can have an adverse effect on the Company, in part because the Company has a large investment portfolio and assets supporting the Company's insurance liabilities are sensitive to changing market factors. Global market factors, including interest rates, credit spread, equity prices, real estate markets, foreign currency exchange rates, consumer spending, business investment, government spending, the volatility and strength of the capital markets, deflation and inflation, all affect the business and economic environment and, ultimately, the profitability of the Company's business. Disruptions in one market or asset class can also spread to other markets or asset classes. Upheavals in the financial markets can also affect the Company's business through their effects on general levels of economic activity, employment and customer behavior.

Asset-based fees calculated as a percentage of the separate account assets are a source of revenue to the Company. Gains and losses in the investment markets may result in corresponding increases and decreases in the Company's separate account assets and related revenue.

## **Political Uncertainties**

Political events, domestically or internationally, may directly or indirectly trigger or exacerbate risks related to product offerings, profitability, or any of the risk factors described above. Whether those underlying risk factors are driven by geopolitics or not, the Company's dynamic approach to managing risks enables management to identify risks, internally and externally, develop mitigation plans, and respond to risks in an attempt to proactively reduce the potential impact of each underlying risk factor on the Company.

## b. Litigation and regulatory matters

In the normal course of business, the Company is involved in disputes, litigation and governmental or regulatory inquiries, administrative proceedings, examinations and investigations, both pending and threatened. These matters, if resolved adversely against the Company or settled, may result in monetary damages, fines and penalties or require changes in the Company's business practices. The resolution or settlement of these matters is inherently difficult to predict. Based upon the Company's assessment of these pending matters, the Company does not believe that the amount of any judgment, settlement or other action arising from any pending matter is likely to have a material adverse effect on the statement of financial position. However, an adverse outcome in certain matters could have a material adverse effect on the results of operations for the period in which such matter is resolved, or an accrual is determined to be required, on the financial statement financial position, or on our reputation.

The Company evaluates the need for accruals of loss contingencies for each matter. When a liability for a matter is probable and can be estimated, the Company accrues an estimate of the loss offset by related insurance recoveries or other contributions, if any. An accrual may be subject to subsequent adjustment as a result of additional information and other developments. The resolution of matters is inherently difficult to predict, especially in the early stages of matter. Even if a loss is probable, due to many complex factors, such as speed of discovery and the timing of court decisions or rulings, a loss or range of loss may not be reasonably estimated until the later stages of the matter. For matters where a loss is material and it is either probable or reasonably possible then it is disclosed. For matters where a loss may be reasonably possible, but not probable, or is probable but not reasonably estimated, no accrual is established, but the matter, if material, is disclosed.

## 17. Related party transactions

In June 2024, MM/Barings Multifamily paid MassMutual \$22 million in dividends and \$10 million return of capital, Insurance Road LLC paid MassMutual \$99 million in dividends, and MMIA paid MassMutual \$11 million in dividends.

In May 2024, MassMutual made capital contributions of \$20 million to ITPS Holdings LLC.

In April 2024, MassMutual made capital contributions of \$300 million to DPI Ares Mortgage Lending LLC.

In February 2024, MassMutual made capital contributions of \$30 million to ITPS Holdings LLC.

## 18. Subsequent events

Management of the Company has evaluated subsequent events through August 15, 2024, the date the financial statements were available to be issued to state regulators and subsequently on the Company's website. No events have occurred subsequent to the date of the financial statements.

## 19. Impairment listing for loan-backed and structured securities

The following are the total cumulative adjustments and impairments for loan-backed and structured securities since July 1, 2009:
