Note 2 - Accounting Changes and Corrections of Errors

a. Under statutory accounting principles, corrections of prior year errors are recorded in current year surplus on a pretax basis with any associated tax impact reported through earnings. The following summarizes corrections of prior year errors:

	Nine Months Ended September 30, 2014		
	Increase (Decrease) to:		Correction
	Prior Year Income	Current Year Surplus	of Assets or Liability Balances
(In Millions)			
Other liabilities	\$ 11	\$ 11	\$ (11)
Policyholders' reserves	(3)	(3)	3
Total	<u>\$ 8</u>	<u>\$ 8</u>	<u>\$ (8)</u>

For the nine months ended September 30, 2013, the Company recorded a decrease of \$6 million related to premium income (ceded).

b. Adoption of new accounting standards:

In December 2013, the NAIC issued Statement of Statutory Accounting Principles (SSAP) No. 105, "Working Capital Finance Investments," which establishes statutory accounting principles for working capital finance investments. This statement also amends SSAP No. 20, "Nonadmitted Assets," to allow working capital finance investments as admitted assets to the extent they conform to the requirements of SSAP No. 105. This new guidance was effective January 1, 2014, and did not have an impact on the Company's financial statements.

In December 2013, the NAIC adopted modifications to SSAP No. 26, "Bonds, Excluding Loan-Backed and Structured Securities," to clarify the amortization requirements for bonds with make-whole call provisions and bonds that are continuously callable. These revisions do not allow insurers to consider make-whole call provisions in determining the timeframe for amortizing bond premium or discount unless information is known by the reporting entity indicating that the issuer is expected to invoke the provision. These clarifying changes were effective January 1, 2014, and did not have a significant impact on the Company's financial statements.

NOTES TO FINANCIAL STATEMENTS

- e. Effective January 1, 2014, the Company recaptured certain life insurance policies that were ceded to the Massachusetts Mutual Life Insurance Company (MassMutual) under a modified coinsurance (Modco) reinsurance arrangement. The Company incurred a \$25 million loss to recapture the business.

Prior to January 1, 2014, the Company had a Modco quota-share reinsurance agreement with MassMutual where the Company ceded 75% of the premium on certain universal life policies. MassMutual had funded the Company a stipulated expense allowance, death and surrender benefits, and a Modco adjustment based on experience. The Company retained the assets and related reserves for payment of future benefits on the ceded policies. The Modco adjustment was the mechanism by which MassMutual funded the reserve on the reinsured portion of the risk. It was needed to adjust for the financial effect of the Company holding the reserves on the ceded coverage rather than MassMutual.

The Company has reinsurance agreements with MassMutual including coinsurance and a stop-loss agreement. With respect to the coinsurance agreement with MassMutual, MassMutual assumes substantially the entire premium on certain universal life policies issued by the Company.

The Company is involved from time to time in litigation arising in and out of the normal course of business, which seeks both compensatory and punitive damages. While the Company is not aware of any actions or allegations that should reasonably give rise to a material adverse impact to the Company's financial position or liquidity, the outcome of litigation cannot be foreseen with certainty. It is the opinion of management that the ultimate resolution of these matters will not materially impact the Company's financial position or liquidity. However, the outcome of a particular proceeding may be material to the Company's operating results for a particular period depending upon, among other factors, the size of the loss or liability and the level of the Company's income for the period.
- f. Regulatory matters:
The Company is subject to governmental and administrative proceedings and regulatory inquiries, examinations and investigations in the ordinary course of its business. In connection with regulatory inquiries, examinations and investigations, the Company has been contacted by various regulatory agencies including, among others, the Securities and Exchange Commission and various state insurance departments and state attorneys general. The Company has cooperated fully with these regulatory agencies with regard to their inquiries, examinations and investigations and has responded to information requests and comments.

Market volatility in the financial services industry over the last several years has contributed to increased scrutiny of the entire financial services industry. Therefore, the Company believes that it is reasonable to expect that proceedings, regulatory inquiries, examinations and investigations into the insurance and financial services industries will continue for the foreseeable future. Additionally, new industry-wide legislation, rules and regulations could significantly affect the insurance and financial services industries as a whole. It is the opinion of management that the ultimate resolution of these regulatory inquiries, examinations, investigations, legislative and regulatory changes of which we are aware will not materially impact the Company's financial position or liquidity. However, the outcome of a particular matter may be material to the Company's operating results for a particular period depending upon, among other factors, the financial impact of the matter and the level of the Company's income for the period.

Business risks

The Company operates in a business environment subject to various risks and uncertainties. Such risks and uncertainties include, but are not limited to, currency exchange risk, interest rate risk and credit risk. Interest rate risk is the potential for interest rates to change, which can cause fluctuations in the value of investments and amounts due to policyholders. To the extent that fluctuations in interest rates cause the duration of assets and liabilities to differ, the Company manages its exposure to this risk by, among other things, asset/liability management techniques that account for the cash flow characteristics of the assets and liabilities. This quarterly risks and uncertainties disclosure should be read in conjunction with the statutory disclosure in the Company's 2013 year end annual financial statements.

Currency exchange risk

The Company has currency risk due to its non-U.S. dollar investments. The Company mitigates currency risk through the use of cross-currency swaps and forward contracts. Cross-currency swaps are used to minimize currency risk for certain non-U.S. dollar assets through a pre-specified exchange of interest and principal. Forward contracts are used to hedge movements in exchange rates.

Investment and interest rate risks

As interest rates increase, certain debt securities may experience slower amortization or prepayment speeds than assumed at purchase, impacting the expected maturity of these securities and the ability to reinvest the proceeds at the higher yields. Rising interest rates may also result in a decrease in the fair value of the investment portfolio. As interest rates decline, certain debt securities may experience accelerated amortization and prepayment speeds than assumed at purchase. During such periods, the Company is at risk of lower net investment income as it may not be able to reinvest the proceeds at comparable yields. Declining interest rates may also increase the fair value of the investment portfolio.
